- b. The meterized assault gun regiment is composed of three companies, with three batteries each, totalling nine batteries. The batteries are composed of 3 sections with 3 guns in each section, totalling 9 guns. The motorized assault gun regiment of Bucharest is provided with guns of the Soviet type "S U 76.2 mm, of improved 1942 model, with lateral armor". The range of the guns is 8 to 9 kilometers. The speed of travel of the gun is 40 km per hour. Each gun is manned by 5 men.
- 5. Observations: There are also 3 independent motorized assault gun companies, each belonging to each of the 3 army corps. These autonomous companies are organized identically and provided with the same material as the companies which are part of the assault gun regiments. A new assault gun regiment is in the course of formation at the artillery training center located at Mihai Bravu, 44 kilometers south of Bucharest on the railroad Bucharest-Giurgiu. This regiment is provided with motorized assault guns S U 85 mm.
- 6. The antitank regiment is composed of 2 companies of 3 batteries each, with 3 sections in each battery and 2 antitank guns in each section. The antitank guns are of Soviet type 76.2 mm, totalling 36 antitank guns for the regiment. Each antitank artillery company also has an antitank rifle company, composed of 3 platoons, with 3 squads in each platoon. Each squad has a Soviet type antitank rifle, totalling 18 antitank rifles for the entire regiment.
- 7. The motorized regiment is composed of 2 motorized infantry battalions, with 3 companies in each battalion. Each company has 3 platoons composed of 3 squads each. The armament consists of ZB automatic guns and PPS automatic pistols. The regiment also has a battalion of light tanks, 27 in number.
